Have you registered?

If you want a vote in the coming election, have your application for registration submitted to the registrar.

Well, well, every man has power and authority of self-government in his political life.

You are better than you seem because you believe yourself to be. So don't give way to discouragement.

There are more people driving for the lack of a kind word, a pat on the back, and a little encouragement, than there are from disease.

QUESTION NOT POLITICAL.

A woman has been appointed night police of Sapulpa, Oklahoma. But she has more arrests of bold hooded men to her credit than all the rest of the force.

About fifteen families have arrived in Cimarron this week from the east in search of new homes. Truly this is the "Gate City" and the faith of the founders is being justified.

Oklahoma County will be in the lead in the good roads movement in New Mexico if the interest aroused at the meeting of the business men last Friday night means anything. The necessity of linking the different communities together with good permanent highways is realized, and Cimarron is going to do her share towards getting good roads and maintaining them.

A woman writing in the Albuquerque Journal says that it is easy to raise a family of ten on \$300 per year. She claims that the larger part of the children will be earning practically as much as the old man before the youngest is old enough to be much expense of parents. That may be true but we speak from experience that it is hard to make rods meet while the older ones are getting old enough to earn enough to buy their shooting gun.

The copies of the constitutions that are being sent out to the voters will do more to prove its worth than any other one thing. The average New Mexican citizen has enough intelligence to read it and see that it was not written for the interest of any special class. The "powers" alleged to have been found have proven to be false alarms, raised mainly for the purpose of scaring funds and scare others, served their purpose and now the people can see for themselves just what the constitution contains.

Gen. W. Wilson announces in this issue of the News as a candidate for Justice of the Peace for this precinct, he is an old timer in Cimarron, coming here in 1872 and has been identified with the business interests of this section of the country since that time, having large real estate holdings in the city and being actively engaged in the

gold mining interests. Mr. Wilson is a second-class citizen of Cimarron, but proves himself a reliable man and will undoubtedly represent the best interests of the community.

**THE BEST TOWN IN THE WORLD.**  
Cimarron is the "best town in the world." It is a small town with a population of about 10,000 people, but it is growing fast, with more than twice the number of inhabitants in the state, and the best protection for the individual, and all of this Cimarron offers the entire country. It is the center of the largest coal fields in the country, and some of the finest coal in the world right at hand, and it naturally has inevitable in this supply plant. The coal mining districts, which are being developed, will produce some coal, and there is a fine school building, and the best of schools in the state. This town is not only a good place for the best town and has the best parts of any town.

THE WHITE LIGHTS.

Oh, when I feel my way by chance  
In the dark, through strange paths we take,  
I strain my eyes around me, extra.  
For what awaits me there,

When swift and free the carrier  
Catches me, and I look along the line,  
Look along the line, look along the line.

That all the lamps are out.

The best lights among the clouds are out.

The stars light up a portion of the sky,  
As when gold is on my go.

And when the night is full,

I look up in the starry dome,

And realize what's up there,

For who can speak for those who dwell

Behind the curving sky?

No one has ever tried to tell

Just what it means to die.

Stirr towards life's terminal flood,

The sun seems short tonight;

And only knows what's at the end.

I hope the lamps are white.

—IV WARMAN.

Princess Clotilde, the younger daughter of the late King Leopold of Belgium, and Prince Victor Emmanuel of Savoy, will make their marriage in Paris on December 26th. The bride is the only child of the very few members

of the royal house still living. The possibility of retumation or even tradition, does it not seem strange that every little happenings whose meedity is in inverse proportion to its veracity, cannot speak of a democrat who favors the constitution, but in most cases such a man out of the party and then letting him with a bulldog who would show a London hibiscus. Take this as an example minus the bulldog.

It is not safe for a democrat to abdicate democratic principles, even though he may be popular. True democrats follow democratic principles and not individuals. When the individual casts off democratic principles and does another uniform democrat refuse to follow?

This is spoken of certain prominent democrats who are working and will work for the constitution. What democratic principles have they abandoned? Not direct legislation for that is not democratic in democratic writings, as just shown.

What an democratic uniform have the democratic secessionists of the constitution done? None whatever, in each democratic is a constitutional to have the original right, without bringing suspicion upon his principles, or orthodoxy, to dispose of the constitution according to his own idea of right and expediency. And yet the greater number of men are only good men from the columns of the most democratic papers engaged in supporting this constitution.—State Re-

view.

Democratic states like Oklahoma, Arkansas, and Missouri, and republican states like Oregon, Montana and Maine, all adopted the initiative and referendum, without reference to politics. Let no one conclude that because the mass of the democratic delegations at Santa Fe favored it, and the republican houses deferred to their legislation, a democrat is in position?
